

PRASANNA MALLA

IT Professional | Aspiring Cybersecurity Researcher

mallaprasanna18@gmail.com · +977-9869970703 · Nepalgunj, Banke, Nepal · [linkedin.com/in/prasanna-ma](https://www.linkedin.com/in/prasanna-ma)

PROFILE

IT graduate (BSc. CSIT) with hands-on experience in secure backend development, network operations, and applied OWASP practices. Focused on vulnerability assessment, penetration testing, API security, and intrusion detection, and applying to M.S. programs in Cybersecurity to build deeper offensive and defensive security expertise.

TECHNICAL SKILLS

Security & Networking	Risk management, secure authentication, encryption (HTTPS, hashing), OWASP practices, network setup, CCTV/PoE, Nmap, Wireshark
Programming	Python (Django), SQL, JavaScript, HTML/CSS
Tools & Systems	MySQL, SQLite, Git, Linux (basic)

CERTIFICATIONS

API Security Fundamentals — APIsec University, 2025

Covers the OWASP API Security Top 10, the three pillars of API security (governance, testing, monitoring), and best practices for secure API development. [View credential](#)

EDUCATION

BSc. Computer Science and Information Technology

2019 – 2024

Tribhuvan University — Nepalgunj Campus

- Most Talented Student Award, 2019
- Relevant coursework: Computer Networks, Network Security, Operating Systems, DBMS, Cryptography

High School, Science Stream

2017 – 2019

Holy-Land Secondary School

PROFESSIONAL EXPERIENCE

IT Associate

Jan 2025 – Jun 2026

Dakshinkali Investment & Securities Pvt. Ltd., Kathmandu

- Developed secure Django-based applications with encrypted authentication and API integration
- Applied OWASP practices to protect user input and data flow
- Managed backend logic and secure database operations using MySQL

Senior IT Support

Nov 2021 – Mar 2024

Venue Recreation Pvt. Ltd., Nepalgunj

- Configured secure systems, installed switches and PoE devices, and managed internal network setup
- Troubleshoot software/network issues with basic incident-response awareness
- Worked within a team to maintain uptime and protect digital infrastructure

Graphic Designer & IT Counselor (Remote)

Jun 2020 – Aug 2021

AS7 Infosys, Kathmandu

- Advised users on secure use of digital tools during COVID-19 and created cyber-hygiene awareness materials

KEY PROJECTS

Online Room Rental System (DosroGhar) — Django, SQLite, Leaflet github.com/ma-prasanna/Online-room-rental-system

- Implemented secure login system and admin moderation for fraud prevention
- Used encrypted data handling techniques and secure session management

Gym Management System — Django, SQLite

- Developed secure, role-based user access controls to protect member data
- Enabled attendance tracking and payment history within secure sessions
